

Junior SQL Developer

ESco is a publishing services bureau working for some of the UK's most well-known publishers. We are an Investor in People company who look after our staff focusing on personal development and training. We value our staff highly, encouraging and rewarding hard work whilst aiming for a good work/life balance for every member of our expanding team.

At a time of continued growth, we are seeking to employ a *Junior SQL Developer* to assist with the creation and support of in-house solutions for processing and analyzing client data. This is an opportunity to be part of a vibrant team of people responding to the needs and challenges of the industry we serve whilst being supported within a structured environment.

The *Junior SQL Developer* will report to the Head of Development and will work within the IT department who provide analysis and reporting for our clients as well as creating and executing data production tasks for internal and external use. There will also be opportunities to work with our 3rd party suppliers to support and develop software and websites if desired.

Responsibilities...

- Creating, maintaining and supporting data processing solutions
- Running data production tasks for internal and external use
- Producing analyses and reports
- Providing IT support to colleagues
- Being willing to learn and develop skills

Essential skills/experience...

- *Passion for Data: A deep interest in, and enjoyment of working with data is essential for this role*
- Good understanding of T-SQL
 - Stored Procedures
 - Triggers
 - Scripts
 - Views
 - Built in Functions
- Knowledge of relational database architecture
- Ability to understand business requirements and create software solutions that work within agreed technical designs
- Strong problem-solving and analytical skills
- Excellent attention to detail
- Able to communicate effectively, both in written and spoken word
- Ability to suggest and develop improvements to current processes
- Due to our rural location, own transport is necessary

Desirable but not essential...

- SSIS knowledge
- SSRS knowledge
- ASP / VB.net knowledge
- Experience of Microsoft Access

What we can offer you...

- Superb career development; with opportunities to progress within a growing company; this role offers professional advancement utilising and expanding your current skills-set
- Excellent working environment, which balances the advantages of a modern, purpose built office setting with the peace and space of the countryside
- Extensive training both now and in the future to encourage and facilitate professional growth
- An attractive salary package based on experience and current skills

Hours...

- Monday to Friday, 40 hours per week
- Normal hours would be 8.30am to 5.30pm with one hour for lunch (except during busy periods when flexible hours will be required)

How to apply...

Please send your CV with a covering email explaining why you would like to become part of the EScO team, and why you would excel in this role, to:

Clare Gill, email address: vacancies@esco.co.uk
